PCT/AU03/01288

Box I	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This internati	onal search report has not been established in respect of certain claims under Article 17(2)(a) for the following
1.	Claims Nos ;
	because they relate to subject matter not required to be searched by this Authority, namely:
2	Claims Nos; because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3.	Claims Nos: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a)
Box II	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
This Internati	onal Searching Authority found multiple inventions in this international application, as follows:
conducti 2. Claim 3. Claim	1-30 for a method of forming an electrically conducting feedthrough with steps, characterised by a vestructure with sacrificial and non-sacrificial components. 31-33 for a feedthrough formed from a film or shim of an electrically conductive metal or alloy. 34-50 The characterising portions of independent claims 34, 35, 36,37,40 include a feedthrough with an glayer, conductive members with ends and variations to the geometry of the conducting members.
1.	As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims
2. <u>X</u>	As all searchable claims could be searched without effort justifying an additional fise, this Authority did not invite payment of any additional fee.
3.	As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4.	No required additional search fees were timely paid by the applicant. Consequently, this internstional search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.;
Remark on I	rotest The additional search fees were accompanied by the applicant's protest.
	No protest accompanied the payment of additional search fees.

Information on patent family members

International application No.

PCT/AU03/01288

This Annex lists the known "A" publication level patent family members relating to the patent documents cited in the above-mentioned international search report. The Australian Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
